I'm a 3rd-year Information Science and Engineering student with a strong academic foundation and a deep interest in AI. Passionate about problem-solving, technology, and innovation, I thrive in collaborative environments and enjoy tackling challenges that enhance user experiences, efficiency, and community impact. A quick learner, I am eager to apply my skills in real-world projects, explore AI-driven solutions, continuously grow, and contribute meaningfully to impact innovations.

WORK EXPERIENCE

ME-RIISE FOUNDATION - Creative sublead

2023-now

- Wrote compelling captions and creative pieces for ME-RIISE Foundation, enhancing audience engagement across digital platform.

PROJECTS

Online Mood-Based Music Streaming Platform

2024-2025

Developed a Java-based music streaming platform that curates playlists based on user emotions, offering a personalized listening experience. Designed the system to categorize music into different moods like happy, relaxed, and focused, allowing users to discover songs that match their emotions. Implemented a responsive UI for seamless interaction and an intuitive design to enhance usability. Optimized audio streaming performance to ensure smooth playback with minimal buffering. The platform aims to provide users with an immersive and emotion-driven music experience.

Portfolio Website - Vita Verse

2024

Designed and developed a responsive portfolio website to showcase achievements, projects, and skills in a visually appealing manner. Built using HTML, CSS, and JavaScript, ensuring an interactive and engaging experience. Implemented a clean and intuitive UI with smooth navigation to enhance user experience across different devices. Integrated interactive elements and animations to make the website dynamic. The platform serves as a personal branding tool, highlighting professional growth and expertise effectively.

ACHIEVEMENTS

RobboSoccer League - Event Coordinator

2024

- Coordinated the RobboSoccer League at ME-RIISE Foundation, integrating technology and sports to create an engaging experience for participants.

Entorphosis - Winner

2022

- Secured 1st place in Entorphosis, an entrepreneurship event by ME-RIISE Foundation, showcasing strong entrepreneurial insights and strategic thinking.

Pragyatha'23 & Pragyatha'24 - Event Organizer

2023, 2024

- Organized Pragyatha, a state-level entrepreneurial event, overseeing logistics, promotions, and coordination to foster innovation and networking among students.

Adspize & Shark Tank Hosting - Event Host

2024

- Hosted Adspize, an inter-branch advertisement competition at Pragyatha, and also hosted Shark Tank, ensuring smooth event flow and audience engagement.
